Non-Financial Component

Five Year Scorecard

Quarterly Projections

Definitions of Performance Indicators

Budgetary alignment with IDP

Expenditure per Key Performance Area

Operational Expenditure per Strategic Objective

Three Year Projected Capital Expenditure per Ward

INTRODUCTION AND OVERVIEW

1.1 PURPOSE OF THE REPORT

The purpose of this report is to provide an executive summary of the legislative framework that prescribes an SDBIP.

The 2016/17 Top Layer SDBIP attached to this report is hereby submitted for approval. It indicates the planned performance targets of Witzenberg Municipality for the period 1 July 2016 to 30 June 2017.

The Top Layer of the SDBIP is made up of the following components:

- ❑ One year detailed plan, with a three-year capital plan
- ❑ The necessary components includes:
 - ⇒ Monthly projection of revenue to be collected for each Source (*Expected Revenue to be collected*)
 - ⇒ Monthly projects of expenditure (operating and capital) and revenue for each vote (*S71 format*)
 - ⇒ Quarterly projects of Services Delivery Targets and performance indicators for each vote. (*Non financial measurable performance objectives in the form of targets and indicators. Level and standard of service being provided to the community*)
 - ⇒ Detailed capital works plan broken down by ward over three year

1.2 LEGISLATIVE FRAMEWORK AND GENERAL INFORMATION PERTAINING TO THE SDBIP

The Municipal Finance Management Act No. 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities must prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulation.

The SDBIP serves as a “contract” between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community to monitor the municipality’s performance on a quarterly basis. The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget,

the execution of projects, the performance of senior management and the achievement of the strategic objectives set by council.

The SDBIP sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services with the inputs and financial resources that will be utilized. The SDBIP will determine the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. Expenditure information (for capital projects and services) per municipal ward is provided so that each output can be broken down per ward, where it is possible to support ward councillors to provide feedback to their communities on progress with service delivery.

As mentioned before, it is a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year. This enables the mayor and municipal manager to be pro-active and take remedial steps if necessary in the event of poor performance.

The SDBIP is a layered plan that consists of a top layer and a supporting layer namely the departmental SDBIP.

TOP LAYER SDBIP (MUNICIPAL SCORECARD)

Circular 13, as well as the municipal budget and reporting regulations prescribe the submission of a Top Layer SDBIP, which is focused on outcomes, to the Mayor with the budget. The Top Layer SDBIP contains the consolidated service delivery targets and in-year deadlines, and links such targets to top management. Only the Top Layer SDBIP will be made public and tabled before the council. The Top Layer SDBIP should also include per ward information, particularly for key expenditure items on capital projects and service delivery. This will enable each ward councillor and ward committee to oversee service delivery in their particular ward. The Top Layer SDBIP and its targets cannot be revised without notifying the council, and if changes are made in service delivery targets and

performance indicators, this must be with the approval of the council, following approval of an adjustments budget (section 54(1)(c) of MFMA). Council approval is necessary to ensure that the mayor or municipal manager do not revise service delivery targets downwards in the event where there is poor performance.

The Top Layer of the SDBIP must be submitted for approval to the Mayor within 14 days after the approval of the budget. The Top Layer SDBIP must be approved by the Mayor within 28 days after the budget has been approved to ensure compliance with the above-mentioned legislation and published on the municipal website.

DEPARTMENTAL SDBIP

A detailed departmental SDBIP, which is focused on operational performance, will be prepared for each municipal department. This SDBIP provides more detail on each output for which top management is responsible. The Top Layer SDBIP is therefore the summary of all the departmental SDBIP's.

The Departmental SDBIP must provide the following information:

- ☐ Purpose (Objectives)
- ☐ Service Delivery description
- ☐ Measurable Performance objectives
- ☐ List of capital projects per Ward
- ☐ Resources utilized (inputs)

FACTORS CONSIDERED FOR THE COMPILATION OF THE TOP LAYER SDBIP

The IDP is considered as the 5-year strategic plan for the municipality and therefore provides an outline of Witzenberg Municipality's vision, mission, objectives and operational and service delivery indicators that are realistic and attainable.

The Top Layer SDBIP was drafted through a one on one consultation with the Municipal Manager and all the directors. After the completion of the draft Top Layer SDBIP, the Municipal Manager had one on one session's with his directors to finalise the Top Layer SDBIP. One on one session's will be held with the heads of Departments to discuss and draft the Departmental SDBIP which would serve as the portfolio of evidence for the TOP Layer SDBIP. The following were considered during the development of the SDBIP:

- Alignment with the IDP, National KPA's, Municipal KPA's and IDP objectives
- Alignment with the budget
- Oversight Committee Report on the Annual Report of 2014/15
- The risks identified by the Internal Auditor during the municipal risk analysis

- Areas to be addressed and root causes of the Auditor-General management letter COMAFS as well as the risks identified during the audit
- Local Government Turnaround Strategy

SECTION 53(1)(C)(II) – SUBMISSION TO THE MAYOR

The top layer service delivery budget implementation plan, indicating how the budget and the strategic objectives of Council will be implemented, is herewith submitted in terms of Section 53(1)(c)(ii) of the Municipal Finance Management Act (MFMA), MFMA Circular No. 13 and the Budgeting and Reporting Regulation for the necessary approval.

DEFINITIONS OF PERFORMANCE INDICATORS

Ref	Key Performance Indicator	Reporting Directorate	Definitions
TL1	% Expenditure on Maintenance Budget by Technical Directorate	Technical	Percentage reflecting year to date spend (including secondary cost) / total maintenance budget of the Technical Directorate. Note that the in-year reporting during the financial year will be indicated as a trend (year to date spend). Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned Maintenance includes asset inspection and measures to prevent known failure modes and can be time or condition-based.
TL2	% Expenditure on Capital Budget by Technical Directorate	Technical	Percentage reflecting year to date spend / Total capital budget less any contingent liabilities relating to the capital budget of the technical directorate. The total capital budget is the council approved adjusted budget at the time of the measurement. Contingent liabilities are only identified at the year end.
TL3	Percentage compliance with drinking water quality standards.	Technical	Measure of potable water sample pass rate according to the SANS 241 standard. Average of sample results. Only microbiological results of Escherichia Coli are considered in the measurement. Result should be less than 1 count per 100ml.
TL4	Number of outstanding valid applications for water services expressed as a % of total number of billings for the service.	Finance	This indicator reflects the number of outstanding valid applications (where down payment has been received) for water services (where valid applications translate into an active account) for domestic customers as extracted from the Municipality's SAMRAS database. The accuracy of the billing records is reported within an error rate of 0, 5%. Proxy measure for National Key Performance Indicator.
TL5	Number of outstanding valid applications for sewerage services expressed as a % of total number of billings for the service.	Finance	This indicator reflects the number of outstanding valid applications (where down payment has been received) for sanitation services (where valid applications translate into an active account) for domestic customers as extracted from the Municipality's SAMRAS database. The accuracy of the billing records is reported within an error rate of 0, 5%. Proxy measure for National Key Performance Indicator.
TL6	Number of outstanding valid applications for electricity services expressed as a % of total number of billings for the service.	Finance	This indicator reflects the number of outstanding valid applications (where down payment has been received) for electricity services (where valid applications translate into an active account) for domestic customers as extracted from the Municipality's SAMRAS database. The accuracy of the billing records is reported within an error rate of 0, 5%. Proxy measure for National Key Performance Indicator.
TL7	Number of outstanding valid applications for refuse collection services expressed as a % of total number of billings for the service.	Finance	This indicator reflects the number of outstanding valid applications (where down payment has been received) for waste removal services (where valid applications translate into an active account) for domestic customers as extracted from the Municipality's SAMRAS database. The accuracy of the billing records is reported within an error rate of 0, 5%. Proxy measure for National Key Performance Indicator.
TL8	Decrease unaccounted water losses.	Technical	Unaccounted-for water (UFW) is the difference between the quantity of water supplied to the municipality's network and the metered quantity of water used by the customers. UFW has two components: (a) physical losses due to leakage from pipes, and (b) administrative losses due to illegal connections and under registration of water meters. The reduction of UFW is a crucial step to improve the financial health and to save scarce water resources.
TL9	Decrease unaccounted electricity losses.	Technical	Unaccounted-for electricity (UFE) is the difference between the quantity of electricity supplied to the municipality's network and the metered quantity of electricity used by the customers. UFE has two components: (a) Technical losses due to ageing/inadequate networks, and (b) administrative or non-technical losses due to illegal connections and under registration of electricity meters. The reduction of UFE is a crucial step to improve the financial health.
TL10	Kilometres of roads upgraded & rehabilitated	Technical	This indicator measures the kilometres of new roads constructed, roads upgraded & rehabilitated and resurfaced.
TL11	Number of subsidised serviced sites developed.	Technical	A housing opportunity is incremental access to and or delivery of one of the following Housing products: Incremental Housing which provides a serviced site with or without tenure.
TL12	Provide basic services - number of informal areas with sufficient communal water services points (taps).	Technical	This indicator reflects the number of informal areas with sufficient communal water service points. Sufficient are being defined as all households with access to water points within 200 meters radius. Certain taps may however have been vandalised or removed after provision. Proxy for National KPI.
TL13	Provide basic services - number of informal areas with sufficient communal sanitation services points (toilets).	Technical	This indicator reflects the number of informal areas with sufficient communal sanitation service points. Sufficient are being defined as all households with access to toilets within 200 meters radius. Certain toilets may however have been vandalised or removed after provision. Proxy for National KPI.
TL14	Improve basic services - number of informal settlements receiving a door-to-door refuse collection and area-cleaning service.	Technical	This indicator reflects the number of informal settlements receiving a weekly door-to-door refuse removal collection service and on-going area cleaning (litter picking and illegal dumping removal). Proxy for National KPI.
TL15	Number of subsidised electricity connections installed.	Technical	This indicator reflects the number of subsidised connections installed per annum in informal settlements and low cost housing/serviced sites projects. Proxy for National KPI.

Pre-determined Objectives	Ref	Key Performance Indicator	Reporting Directorate	Definitions
Support Institutional Transformation & Development	TL16	Percentage budget spent on Implementation of Workplace Skills Plan	Corporate	A Workplace Skills Plan is a document that outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate the budget for appropriate training interventions which will address the needs arising out of Local Governments' Skills Sector Plan, the municipality's strategic requirements as contained in the IDP and the individual departmental staffing strategies and individual employees' PDP's. The WSP shall also take into account the Employment Equity Plan, ensuring incorporation of relevant developmental equity interventions into the plan. Kpi measures percentage expenditure of vote allocated towards training needs as arise from WSP.
	TL17	Percentage of people from employment equity target groups employed in the three highest levels of management in	Corporate	This indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the municipality's approved employment equity plan. National Key Performance Indicator.
Ensure financial viability	TL18	Financial viability expressed as Debt-Coverage ratio	Finance	This indicator measures debt coverage as (total operating revenue – operating grants received) / debt service payments due within the year. This means the municipality is able to cover its debt service payments from operating revenue excluding grants number of times.
	TL19	Financial viability expressed as Cost-Coverage ratio	Finance	This Indicator measures: (available cash + investments) / monthly fixed operating expenditure. This indicates that with the available cash the municipality is able to pay its fixed operating expenditure for certain amount of months.
	TL20	Financial viability expressed outstanding service debtors	Finance	These Indicator measure service debtors to revenue (total outstanding service debtors / revenue received for services). This means that a % of revenue in the SFP is still outstanding as at 30 June 2013.
	TL21	Opinion of the Auditor-General on annual financial statements of the previous year	Finance	This indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor General in determining his opinion. An unqualified audit opinion refers to the position where the auditor having completed his audit has no reservation as to the fairness of presentation of financial statements and their conformity with General Recognised Accounting Practices. This is referred to as "clean opinion". Alternatively in relation to a qualified audit opinion the auditor would issue this opinion in whole, or in part, over the financial statements if these are not prepared in accordance with General Recognised Accounting Practices or could not audit one or more areas of the financial statements. Future audit opinions will cover the audit of predetermined objectives.
	TL22	Increased revenue collection	Finance	This indicator reflects the percentage of revenue collected from service accounts delivered.
	TL23	Percentage of budget spent on maintenance	Finance	Percentage reflecting year to date spend (including secondary cost) / total maintenance budget of the municipality in total. Note that the in-year reporting during the financial year will be indicated as a trend (year to date spend). Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned Maintenance includes asset inspection and measures to prevent known failure modes and can be time or condition-based.
	TL24	Percentage spend of capital budget	Finance	Percentage reflecting year to date spend / Total capital budget less any contingent liabilities relating to the capital budget. The total capital budget is the council approved adjusted budget at the time of the measurement. Contingent liabilities are only identified at the year end.
To maintain and strengthen relations with international- & inter-governmental partners as well as the local community through the creation of participative structures.	TL25	Number of IDP community meetings held	Municipal Manager	Bi-annual community meetings as per IDP Process Plan held in each of the 7 towns.
	TL26	Number of meetings with inter-governmental partners	Community	Number of Inter-Governmental meetings attended
Provide & maintain facilities that make citizens feel at home	TL27	Customer satisfaction survey (Score 1-5) - community facilities.	Community	This Indicator measures community perception and satisfaction in respect of the access to and maintenance of certain community facilities. The municipality's Community Satisfaction Survey measures public perception around the following number of issues: Access to libraries, access to community halls, access to parks (including maintained open spaces and children play parks), maintenance of parks (including maintained open spaces and children play parks) & access to sport facilities.
	TL28	% Expenditure on Maintenance Budget by Community Directorate	Community	Percentage reflecting year to date spend (including secondary cost) / total maintenance budget of the Community Directorate. Note that the in-year reporting during the financial year will be indicated as a trend (year to date spend). Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned Maintenance includes asset inspection and measures to prevent known failure modes and can be time or condition-based.
	TL29	% Expenditure on Capital Budget by Community Directorate	Community	Percentage reflecting year to date spend / Total capital budget less any contingent liabilities relating to the capital budget of the community directorate. The total capital budget is the council approved adjusted budget at the time of the measurement. Contingent liabilities are only identified at the year end.
Support the poor & vulnerable through programmes & policy	TL30	Number of account holders subsidised through the municipality's Indigent Policy	Community	Refers to the number of account holders subsidised through the municipality's Indigent Policy.
	TL31	The number of jobs created through municipality's local economic development initiatives including capital projects.	Community	This Indicator measures the number of work opportunities created through the expanded Public Works Programme (EPWP) and contracts for temporary workers and temporary workers employed through contractors on projects. Proxy for National KPI.
	TL32	Number of social development programmes implemented	Community	The Indicator refers to the number of social developmental programmes implemented. Seven programmes have been identified and each programme will consist of a number of projects and interventions.
	TL33	Number of housing opportunities provided per year.	Community	A housing opportunity is incremental access to and or delivery of one of the following Housing products: Subsidy Housing which provides a minimum 40m² house.
	TL34	Number of Rental Stock transferred	Community	Number of rental stock transferred to approved beneficiaries, using established criteria. Rental stock is being defined as subsidised houses constructed before 1994 (scheme houses) and leased by the municipality to identified and approved beneficiaries.
Create an enabling environment to attract investment & support local economy.	TL35	Revisit Municipal Land Audit and draw up an implementation plan. Phase Implementation from 14/15 onwards.	Corporate	This indicator measures the following over the 5 year IDP period: Capacitating of Property Office, develop and maintain property register & land Audit Implementation Plan that would include well defined phases for implementing annually.
	TL36	Compile & Implementation of LED Strategy	Community	Measures the Implementation of a LED Strategy over the 5 year IDP period. The Implementation includes the development of the strategy with well-defined phases for implementing annually over the 5 year period.
