## Glossary

Adjustments Budget - Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.

Allocations - Money received from Provincial or National Government or other municipalities.
AFS - Annual Financial Statements.
Budget - The financial plan of the Municipality.
Budget Related Policy - Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy and credit control and debt collection policy.
Capital Expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's Statement of Financial Performance.
Cash Flow Statement - A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

CFO - Chief Financial Officer
DORA - Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable Share - A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

NT - National Treasury
Net Assets - Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure - Spending on the day to day expenses of the Municipality such as salaries and wages.
Rates - Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.
