It is my privilege to present to you the budget for the 2014/2015 financial year as well as the 2015/2016 to 2016/2017 medium term revenue and expenditure framework.

The economic outlook remains unsteady due to the negative cost effects of the declining value of the Rand, but it supports exporters. The negative effects of the hail storm of December 2013 are impacting negatively on the municipality as the large consumers' uses fewer services and less people are employed, and for shorter periods.

Eskom's policy to subsidise alternative energy for bulk consumers have a negative effect on the revenue of both the Witzenberg municipality and Eskom itself. The maximum demand by the mentioned consumers is in summer when the maximum demand for the country is at its lowest; therefore Eskom should not experience any problems in meeting the demands. Less electricity sales will result in less money available to finance service delivery.

We know that job creation is a priority and that the climate must be created to attract investments to the Witzenberg municipal area. The rebate policy for new investments must be advertised more aggressively. The municipality itself cannot create internal job opportunities as it will lead to increased tariffs and more outstanding debt in respect of service charges.

The bulk of the proposed capital expenditure is in respect of housing delivery and infrastructure expansion to support the housing delivery. It is a concern that almost all the grant funding is utilised to finance bulk services for housing projects. The provision of housing is a provincial function and it is believed that the provincial housing department must finance the bulk infrastructure as well. More of the residents need to benefit from the capital grants received from national government.

It remains a challenge to raise sufficient funds for improved service delivery while tariffs must still be affordable to the community. Debt collection needs to improve to make more funds available for capital expenditure on basic service and the needed maintenance of the municipalities' assets.

The municipality cash and cash equivalents is only sufficient to cover expenditure for about 1.6 months. A balance must be found between improving the available cash and cash equivalents and spending money on service delivery.

The capital budget

The capital budget for the next financial year amounts to R62.9 million of which only R 17.1 million is from own revenue. The rest of the capital budget is financed from Grants. R3.3 million of the capital projects is subject to the sale of certain properties.

As can be seen from the aforementioned, the municipality is too reliant on Grants to fund its capital expenditure. That said we are thankful for the Grants allocated to Witzenberg Municipality.

The project choices for the budget is limited as the municipalities contributions to the Bulk Water provision - Kleinberg River and Tulbagh waste water treatment works upgrade from own funds is R 7.3 million while a further R 2.0 million is budgeted for the electricity networks for subsidised housing.

The capital budget for medium term revenue and expenditure framework can be summarized as follows:

Capital Expenditure	2014/2015	2015/2016	2016/2017
Governance and administration	1 600 000	650 000	0
Community and public safety	8 488 808	1 800 000	3 996 604
Economic and environmental services	6 029 161	5 310 526	6 446 491

Total Capital Expenditure	62 921 517	40 433 771	44 556 696

The operating budget

The operating budget for next year amounts to R397 million of which only R330 million is from own revenue. The rest of the operating budget is financed from Grants.

The operating budget for medium term revenue and expenditure framework can be summarized as follows:

Operating Expenditure	2014/2015	2015/2016	2016/2017
Governance and administration	88 737 868	95 008 536	101 391 647

Trading services	228 079 705	244 956 110	262 508 055
Other	654 125	686 893	728 151
Total Operating Expenditure	396 566 808	432 328 636	462 443 169

Tariff implications of the annual budget

Electricity:

The revenue from both the non-domestic tariff and the domestic tariff will increase by an average 8%, in line with the actual bulk cost increase to Council which is 8%.

The maximum demand charges will increase with 4 % in an attempt to reduce the profit margin on the said charges.

The guideline from the National Energy Regulator of South Africa is an increase of 7.39% in the tariffs charged by the municipality to its consumers, but it is proposed that an application be lodge for an 8.0% increase to enable the municipality to make funds available for maintenance of the electricity network.

Water:

The water tariff increase will be $\pm 6\%$.

Rates:

The increase of Sanitation Tariffs will be $\pm 8\%$.

Sanitation:

The increase of Sanitation Tariffs will be $\pm 6\%$.

Refuse removal:

The tariff increase for Refuse Removal Tariffs will be $\pm 8\%$. This increase is necessitated by the increase in refuse bags, fuel and labour cost.

Honourable Speaker, I hereby submit the following documents to council for consideration for approval

4 Executive Summary

Past performance

Witzenberg Municipality has now attained four unqualified and one clean audit reports for the last five financial years. Whilst the reports are very positive achievements one has to be honest and say that it tells the reader little about whether we have improved service delivery or even delivered on our constitutional mandate. What they do say is that the Council is reasonably honest in its operations to tax and spend on behalf of the local population.

Budget Summary

The Municipality's 2014/2015 budget amounts to R 460 million, represented by a Capital Budget of R 63 million and an Operating Budget of R 397 million.

The total budget (operating and capital) will be financed from own income R 342 million and Government Grants R 118 million.

Revenue / tariff increases

- The increase for Rates Tariffs will be $\pm 8\%$.
- The increase of Water Tariffs will be $\pm 6\%$.
- The increase of Sanitation Tariffs will be $\pm 6\%$.
- The tariff increase for Refuse Removal Tariffs will be $\pm 8\%$.
- The tariff increase for Electricity Tariffs will be $\pm 8\%$ on average.

Expenditure category increases

The budgeted increase in expenditure categories are as follows:

Employee related costs	7.51%
Remuneration of councillors	12.03%
Debt impairment	11.85%
Depreciation & asset impairment	-20.76%
Finance charges	-4.62%
Bulk purchases	9.00%
Contracted services	33.41%
Transfers and grants	6.00%
Other expenditure	-22.47%

The increase in salary expenditure results from an expected 7% increase in salaries as negotiated at the bargaining council as well as the notch increase for qualifying employees.

The increase in bulk purchases is to cover the 8% increase in Eskom tariffs as well as the expected grow in demand.

The budgeted increase in finance charges is a direct result of the GRAP provisions for employee benefits and the interest “payable” to these provisions.

The projected increase results from a combination of factors such as (relatively low) generic growth to core tariff-based services, operational efficiencies and revenue-related policies aimed at optimising and sustaining all income sources.

The financing of capital expenditure from own funds (CRR) totals R 17.1 million. This amount represents a decrease to originally planned values and is earmarked to address specific infrastructural capital investment aligned to IDP focus areas. This level is considered to be affordable over the MTREF 3-year period. R3.3 million of the capital projects financed from own funds is subject to the sale of certain properties.

Capital investment funding from Capital Grants represents a significant portion (74.6%) of the Municipality’s Capital Budget in 2014/2015 and consist mainly of the Provincial Housing Grant the Municipal Infrastructure Grant (MIG) and the Regional Bulk Infrastructure Grant (RBIG).

The 2014/2015 Budget was compiled in terms of the Municipal Budget and Reporting Regulations and a phased-in process will be followed to include all information regarding the tables and supporting documentation.

Financial position and MTREF strategy

The financial position of Witzenberg Municipality is set out in Table A6: Budgeted Financial Position.

The National, Provincial and District Context

The Municipality's budget must be seen within the context of the policies and financial priorities of National and Provincial Government as well as the district municipality. In essence, the spheres of Government are partners in meeting the service delivery challenges faced in Witzenberg Municipality. The Municipality alone cannot meet these challenges and we require support from the other spheres of Government through the direct and indirect allocation of resources as well as the achievement of their own policies.

The following table shows the allocations to Witzenberg Municipality as set out in the National Division of Revenue Act 1 of 2011 in the MTEF period:

Furthermore, this section also states that the Mayor must at least 10 months before the start of the budget year, table in municipal council, a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget.

This time schedule provides for political input from formal organizations such as portfolio Committees.

6.2. Schedule of Key Deadlines relating to budget and IDP process [MFMA s 21(1)(b)]

The IDP and Budget time schedule of the 2014/2015 budget cycle was adopted by Council during August 2013, 10 months before the start of the budget year in compliance with legislative directives.

Public budget and IDP meetings will be held throughout Witzenberg and all members of the public are urged to attend.

6.3. Process used to integrate the review of the IDP and preparation of the Budget

Updating the IDP and Budget is an evolving and re-iterative process over a 10 month period. The initial parallel process commenced with the consultative process of the IDP in 2011 and the update of the MTREF to determine the affordability and sustainability framework at the same time.

6.4. Process for consultation with each group of stakeholders and outcomes

Following tabling of the draft budget in March 2014, local input will be solicited via notices published in all major newspapers, including The Cape Times, Die Burger and The Witzenberg Herald. The budget documentation will be available on the municipal website: witzenberg.gov.za

Comments on the IDP/Budget will be made by the public via verbal presentations, facsimiles, emails and in the form of correspondence to the municipality and will be considered for incorporation as part of the budget process.

6.5. Stakeholders involved in consultations

The tabled budget will be provided to National Treasury and Provincial Treasury in March/April 2014 for their consideration in line with S23 of the MFMA.

The Municipality's consultation process on its draft IDP and budget will be held during April 2014, where various community organizations and representatives may/will come forward to give input and to re-prioritize some of their needs.

Community representatives and organizations had to review the priorities given previously and to ascertain whether it has been captured as priorities during the 2014/15 IDP/Budget process.

10 Overview of Budget Assumptions

Expenditure

Salaries and Allowances

It is assumed that salaries of employees and councillors will in terms of the National Bargain Council negotiations of salary increases for the following three years. The following was negotiated for 2014/2015 namely:

Salary increase based on CPIX 6.0% plus 1.0% plus 2.5% notch increase for qualifying employees in terms of the national agreement reached between SALGA and the unions.

The Minister of Finance will approve increases of councillors during the 2014/2015 financial year, and the increase will be implemented as from 1 July 2014.

General expenditure

It is assumed that costs for services will increase in line with the CPIX. The current oil price is a concern and it is expected that the fuel price hikes will have a substantial effect on expenditure. It is also assumed that the capital projects for 2014/2015 will be completed during the financial year as there were budgeted for the depreciation of such projects as per general recognized accounting practice (GRAP). Depreciation on new capital expenditure is calculated at a varying rate ranging between 3 and 20 years depending on the nature of the asset.

Repairs and Maintenance

It is assumed that municipal infrastructure and assets will be maintained as per previous years and that no major breakages will take place during the financial year.

Capital costs

It is assumed that interest rates will be stable during the financial year, but the provision for capital has not been decreased.

Bulk Purchases

It is assumed that electricity tariffs of Eskom will increase by 8.06% as from 1 July 2014, as approved by NERSA.

Income

Households

It is assumed that the total households in the municipal area (the tax base) will stay stable during the financial year. The new RDP houses to be built will be for the benefit of families residing in informal areas. The total number of households is thus not expected to increase. Care must be taken that the informal structures are removed as soon as the beneficiaries moved to the new houses.

Collection rate for municipal services

It is assumed that the collection rate (percentage of service charges recovered) for the financial year will be the same as the current payment rate.

In accordance with relevant legislation and national directives, the estimated revenue recovery rates are based on realistic and sustainable trends. The Municipality's collection rate is set at an average of 96%. Adequate provision is made for non-recovery. Whilst collection rates will vary between different services and be based on current trends, special provision was made to cater for roll-out of an extended indigent program.

Grants

It is assumed that the National and Provincial grants as per Division of Revenue Act (DORA) which has been included in the budget will be received during the 2014/2015 financial year.

Indigents

It is assumed that the number of indigents will not increase to more than 3 500 during the financial year due to the adjustments to the indigent policy approved during September 2011.

11 Overview of Budget Funding

Summary

The operating budget for 2014/2015 to 2016/2017 will be financed as follows:

	2014/2015	2015/2016	2016/2017
Charged for electricity, water, refuse and sewerage	248 925 315	270 292 179	286 453 380
Property Rates	50 797 440	53 854 580	57 097 880

The capital budget for 2014/2015 to 2016/2017 will be financed as follows:

Grants	45 796 184	29 008 771	33 036 511
Total Capital Budget	62 921 517	40 433 771	44 986 511

Reserves

All the reserves of the municipality are not cash funded. The process to accumulate sufficient funds is a long term process as tariff increases must be kept to a minimum, and service delivery must be continued.

Sustainability of municipality

The way that the budget is funded will ensure that the municipality will be sustainable on the short term. The full effect of huge increases in electricity tariffs may on the long run impact negatively on the sustainability of the municipality. This is a huge concern for the municipality and the municipality has no control over the increases approved by NERSA.

Impact on rates and tariffs

The way that the budget is funded will ensure that, except for electricity and refuse removal tariffs, service tariff increases will be $\pm 6\%$. Property rates tariffs will increase with $\pm 8\%$. The municipality has no control over the increases of electricity tariffs and the $\pm 8\%$ increase in electricity tariffs of Eskom; will have a negative impact on the local economy.

Property valuations, rates, tariffs and other charges

A General Valuation was done in terms of the Property Rates Act, (Act 6 of 2004) during the current financial year. The new property valuations were implemented from 1 July 2013.

The rates tariffs as well as tariffs for electricity, water, refuse, sewage together with the sundry tariffs are listed in Section B – Tariffs. The tariff increases are also indicated.
